Abhishek **Kumar**

PYTHON DEVELOPER | DATA SCRAPING & AUTOMATION

📞 +91 9074202062 | ✉️ abhishekkumar269@gmail.com | 💼 linkedin.com/in/abhishek-kumar-76237178

SKILLS

Python · Selenium · BeautifulSoup4 · Pandas · Requests · NumPy · CSV · JSON · Django · Bootstrap · AWS · Git / GitHub · API Integration · PDF Extraction · Job Scheduling (Cron) · ETL Pipelines · AI-Assisted Dev · SQL

PROFILE

Python Developer specializing in web scraping, data extraction, and browser automation. Built **50+ scrapers** across e-commerce, finance, real estate, and sports domains. Completed **20+ real-world scraping projects** with clean CSV/JSON output. Builds reliable **ETL pipelines** to extract, clean, and deliver structured data at scale. Handles dynamic pagination, multi-tab automation, and deduplication. Full-stack background (Django, AWS) adds pipeline versatility.

EXPERIENCE

Data Scraping & Automation Developer
Feb 2025 – Present

Freelance · Remote

- Built 20+ real-world data extraction projects across e-commerce, job portals, and research platforms
- Scraped 50+ websites — Amazon, Flipkart, MagicBricks, NSE, IMDb, Cricbuzz, football stats and more
- Built a reusable scraping boilerplate framework, reducing setup time for new projects
- Handled advanced automation: 100+ concurrent tabs, dynamic pagination, and duplicate removal
- Delivered clean structured datasets in CSV and JSON using Pandas
- Used ChatGPT for AI-assisted debugging and script optimization

Independent Equity Trader
Jan 2021 – Jan 2025

Self-Employed · Indian Stock Markets

- Full-time retail trader in Indian equity markets with focus on technical analysis and price action
- Developed Python and Django skills alongside trading — foundation for current scraping work

Full Stack Developer
Feb 2019 – Jan 2020

Cybetiq Pvt. Ltd. · Noida, UP

- Designed and developed websites with focus on front-end design and UI
- Worked with HTML, CSS, JavaScript, Bootstrap, and PHP in a team environment

Business Development Executive
Jul 2016 – Jan 2019

Trifid Research Pvt. Ltd.

- Awarded Best Debut Performer for outstanding client acquisition and sales performance

PROJECTS

Web Scraping Portfolio — 50+ Sites
github.com/suspaaX/web-scraping-portfolio

Scrapers for e-commerce, finance, sports, and entertainment. Built with Selenium, BeautifulSoup4, and Pandas. Includes full ETL pipeline — extraction, transformation, and structured CSV/JSON output.

Real-World Scraping Projects — 20+ Builds
github.com/suspaaX/client_scraping_project

Data extraction projects with dynamic scraping, multi-tab automation, pagination handling, anti-bot bypass, and Cron-based job scheduling for automated data delivery.

EDUCATION

B.E. Computer Science & Engineering
Laxmipati Institute of Science & Technology, Bhopal

2011 – 2016 · 71.50%

ACHIEVEMENTS

- 200+ Python problems solved on W3Resource
- Best Debut Performer — Trifid Research Pvt. Ltd.
- Paper presentation on "Cyber Law Management for IT Professionals" — National Seminar, LIST Bhopal
- Team Leader — Final Year Academic Project

LEARNING & DEVELOPMENT

- Solving 5–10 Python problems daily to sharpen problem-solving skills
